

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Basler-Aktienfonds DWS

ISIN: DE0008474057, Security code: 847405, Currency: EUR

The management company is DWS Investment GmbH, a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is managed in reference to a benchmark. The objective of the investment policy is to generate a return in euro, based on the performance of the benchmark (DAX). In order to achieve this, the fund mainly invests in equities of domestic and foreign issuers. The equities shall be those issued by companies from a variety of industrial sectors and companies that offer favorable growth and earnings prospects over a longer term on the basis of their configuration and structure. The selection of individual investments is at the discretion of the fund management. The majority of the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use its discretion to invest in securities and sectors that are not included in the benchmark in order to take advantages of specific investment

opportunities. The strategy provides investors with access to equities of German issuers. In relation to the benchmark, the fund provides a broader approach to risk diversification (e.g., by having a positioning outside of the benchmark). Due to the focus on blue chips and due to the specific characteristics of the benchmark, which shows a high concentration on a few blue chips, the portfolio's deviation from the benchmark is typically relatively low. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The fund distributes annually. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and

the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: There is the risk of loss resulting from the inadequacy or failure of internal systems, processes or people and as a result of external events. The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. The fund invests in bonds, the value of which depends on whether the issuer is able to afford its payments. The deterioration of credit quality (ability and willingness to repay) may have an adverse affect on the value of the bond.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	4.71 %
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	1.47 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor. The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2019. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from Basler-Aktienfonds DWS were deducted during the calculation. Entry and exit charges were not taken into account. Basler-Aktienfonds DWS was launched in 1971.
