

### Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Multi-Index Equity Fund

ISIN: DE000DWS2C26, Security code: DWS2C2, Currency: EUR

The management company is DWS Investment GmbH, a member of the DWS Group.

### Objectives and investment policy

The fund is actively managed. The fund is not managed in reference to a benchmark. The objective of the investment policy of the fund is a long-term build-up of capital through investment in investment instruments from Europe, including countries outside the member states of the EU, as well as the USA. In order to achieve this, the fund can invest up to 100% in either of the two regions. This involves passive investment through the replication of widely recognized stock market indices (so-called blue chip indices) and the distribution between the two regions is adjusted from time-to-time at the discretion of the fund manager. The equity allocation may total up to 100%. Alternatively, up to 100% of the fund's assets

may be invested in exchange traded funds or shares of directive-compliant Undertakings for Collective Investment in Transferable Securities (UCITS) and in assets of Undertakings for Collective Investments (UCIs). In this context, shares in domestic and foreign equity funds and near-money market funds may be acquired. In order to hedge its assets and to manage them efficiently, the fund may make use of suitable derivatives. In order to reduce currency risks, assets not denominated in euro may be hedged against the euro. The fund distributes annually. You may request the redemption of shares generally on a daily basis.

### Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not

represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund invests its assets in selected regions or sectors. This increases the risk that the fund may be negatively influenced by the economic and political conditions in the respective regions or sectors. The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

### Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest  |        |
|---|--------|
| Entry charge  | 5.00 % |
| Exit charge   | None   |
| This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge). |        |
| Charges taken from the fund over a year   |        |
| Ongoing charges   | 0.29 % |
| Charges taken from the fund under certain specific conditions   |        |
| Performance fee   | None   |

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor. The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2019. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

### Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from Multi-Index Equity Fund were deducted during the calculation. Entry and exit charges were not taken into account. Multi-Index Equity Fund was launched in 2015.
