

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS Qi Extra Bond Total Return

Share class: SD, ISIN: DE0009788026, Security code: 978802, Currency: EUR

The management company is DWS Investment GmbH, a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is not managed in reference to a benchmark. The objective of the investment policy is to focus on hard currency bonds of emerging markets and their earnings potential. In order to achieve this, the country mix can be adjusted depending on the market assessment. Interest-bearing securities denominated in euro or another major currency (e.g. U.S. dollars), for example, in which currency risks are hedged, are considered. Derivative financial instruments may be used for both

investment and hedging purposes. The fund bears the fees for buying and selling securities. They are incurred in addition to the percentages listed under "Costs" and may reduce the fund's yield. In this context, the selection of individual investments is the responsibility of the fund management. The currency of the fund is EUR. The fund distributes annually. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified

in category 3 because its share price fluctuates comparatively little and the likelihood of both losses and gains is therefore relatively low. The following risks could be of particular significance for the fund: The fund invests its assets in selected regions or sectors. This increases the risk that the fund may be negatively influenced by the economic and political conditions in the respective regions or sectors. The fund invests in bonds, the value of which depends on whether the issuer is able to afford its payments. The deterioration of credit quality (ability and willingness to repay) may have an adverse effect on the value of the bond.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00 %
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.65 %
Charges taken from the fund under certain specific conditions	
Performance fee	None
Securities lending fees	0.01 %

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor. The ongoing charges figure is based on expenses for the fiscal year ending 31.05.2020. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the SD share class of DWS Qi Extra Bond Total Return were deducted during the calculation. Entry and exit charges were not taken into account. The SD share class of DWS Qi Extra Bond Total Return was launched in 2000.
