

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS Covered Bond Fund

Share class: TFD, ISIN: DE000DWS2SP3, Security code: DWS2SP, Currency: EUR

The management company is DWS Investment GmbH, a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is managed in reference to a benchmark. The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (iBoxx Euro Covered (RI)). In order to achieve this, the fund invests in covered bonds denominated in euro, such as German mortgage bonds and Spanish cedulas. The selection of individual investments is at the discretion of the fund management. The majority of the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use its discretion to invest in e.g. securities, sectors, ratings that are not included in the benchmark in order to take advantage of specific investment

opportunities. The strategy provides investors with access to the bond market. In relation to the benchmark, the fund uses a broad approach to risk diversification (e.g., by having a positioning outside of the benchmark). The portfolio's deviation from the benchmark is generally relatively low. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The currency of the fund is EUR. The fund distributes annually. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not

represent a completely risk-free investment. The fund is classified in category 2 because its share price generally fluctuates very little and the likelihood of both losses and gains should therefore be relatively low. The following risks could be of particular significance for the fund: The fund invests in bonds, the value of which depends on whether the issuer is able to afford its payments. The deterioration of credit quality (ability and willingness to repay) may have an adverse affect on the value of the bond. A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.36 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

The ongoing charges figure is based on expenses for the fiscal year ending 30.09.2020. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the TFD share class of DWS Covered Bond Fund were deducted during the calculation. The TFD share class of DWS Covered Bond Fund was launched in 2018.
