

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Vermögensmanagement Rendite

ISIN: DE000A0MUWV1, Security code: A0MUWV, Currency: EUR

The management company is DWS Investment GmbH, a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is not managed in reference to a benchmark. The objective of the investment policy is to achieve the highest possible appreciation of capital. To achieve this, securities, money market instruments, bank balances and funds may be acquired. The fund can invest up to 100% in securities and investment undertakings. A balanced portfolio structure is sought. Derivatives may be acquired for investment and

hedging purposes. In this context, the fund management is responsible for selecting the individual investments. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis. The Company may, however, suspend or restrict the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not

represent a completely risk-free investment. The fund is classified in category 3 because its share price fluctuates comparatively little and the likelihood of both losses and gains is therefore relatively low. The following risks could be of particular significance for the fund: The fund invests substantially in other funds. When investments are made in other funds, it must be taken into consideration that multiple target funds may pursue the same or mutually opposing investment strategies. This may result in lower diversification effects.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	2.00 %
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	1.58 %
Charges taken from the fund under certain specific conditions	
Performance fee	0.00 %
The performance-based fee is equal to up to 10% of the amount by which the performance exceeds that of the 3-M Euribor p.a. in euro, but in total it shall not exceed 1.5% of the average value of the investment fund. When calculating the performance-based fee, a high-water mark rule applies, which takes into consideration the previous accounting periods.	

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor. The ongoing charges figure is based on expenses for the fiscal year ending 30.04.2022. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from Vermögensmanagement Rendite were deducted during the calculation. Entry and exit charges were not taken into account. Vermögensmanagement Rendite was launched in 2007.
